- Programming Languages: Python & PHP
- Database Management: MySQL, PostgreSQL

ADDITIONAL SKILLS

- Strong problem-solving abilities with a focus on both software and hardware-related issues.
- Ability to adapt quickly to new technologies and concepts.
- Detail-oriented with a commitment to delivering high-quality work.

ABOUT ME

I'm an IT student who loves tinkering with computers, both software and hardware. From discovering the inner workings of printers and laptops to understanding their unique characteristics, I'm always up for a challenge. I'm excited to use what I've learned to help out in a real job and be part of a friendly internship team.

RELEVANT EXPERIENCE

Capstone Project

Accreditation and Certification Information System

- Demonstrated proficiency in system development as backend developer.
- Engaged with stakeholders to gather requirements and ensure the system met their needs effectively.

Research

Faculty Records Monitoring System

- Contributed as a backend developer to build a system for efficient management of faculty records.
- Collaborated with team members to ensure seamless integration and functionality of the system.

Technical Sales and Repair of Printers and Laptops

- Experienced in buying and selling second-hand printers and laptops.
- Proficient in diagnosing and repairing hardware and software issues in printers and laptops.
- Skilled in refurbishing faulty printers and laptops to sell them in working condition.
